

# AUSTRALIAN BUREAU OF STATISTICS

## Section 1: Overview, appropriations and budget measures summary

### AGENCY OVERVIEW

The Australian Bureau of Statistics (ABS):

- is the central statistical authority for the Australian Government;
- provides statistical services for the State and Territory Governments;
- collects, compiles, analyses and disseminates statistics and related information;
- ensures the coordination of the statistical activities of, and provides advice and assistance to, other government agencies; and
- provides liaison between Australia and other countries and international organisations on statistical matters.

### APPROPRIATIONS AND RESOURCING

The total appropriation for the ABS in the 2004-05 Budget is \$269.6 million. Table 1.1 on the following page provides this detail.

**Australian Bureau of Statistics — appropriations 2004-05**  
**Table 1.1: Appropriations and other revenue**

Outcome	Agency (price of outputs), \$'000			Administered \$'000			\$'000 Total
	Revenues from government (appropriations)	Revenue from other sources <sup>(3)</sup>	Price of outputs <sup>(2)</sup>	Annual appropriations	Special appropriations	Total administered appropriations	
	Bill No. 1	Total		Bill No. 1	Bill No. 2		
	(A)	(B) (C = A+B) (C1) <sup>(1)</sup>	(D) (E = C+D) (E1) <sup>(1)</sup>	(F)	(SPPs & NAOs) (G)	(H) (I = F+G+H)	(J = C+I)
<b>Outcome 1 -</b> Informed decision making, research and discussion within governments and the community based on the provision of a high quality, objective and responsive national statistical service	269,558	- 269,558	17,218 286,776	-	-	-	269,558
<b>Total</b>	269,558	- (K1) <sup>(1)</sup> 269,558	6% 100% 17,218 286,776	-	-	-	269,558
				Agency capital (equity injections and loans)			
				Administered capital			
				Total appropriations			269,558

1. C1 and E1 refer to information provided in Table 2.1, Total resources for Outcome 1. K1 refers to information provided in Table 3.1, Budgeted Agency Statement of Financial Performance.

2. Refer to Table 3.1, Budgeted Agency Statement of Financial Performance for application of agency revenue.

3. Revenue from other sources includes other revenues from government (for example, resources free of charge) and revenue from other sources (for example, goods and services). Non-appropriated agency revenues are detailed in Table 1.3.

Note: Percentage figures indicate the percentage contribution of revenues from government (agency appropriations) to the total price of outputs, by outcome.

## AGENCY REVENUES

**Table 1.3: Agency revenues**

	2003-04 estimated revenue \$'000	2004-05 estimated revenue \$'000
<b>ESTIMATED AGENCY REVENUES</b>		
<b>Non-appropriation agency revenues</b>		
Goods and services	18,841	16,910
Proceeds from sales of assets	15	208
Other	100	100
<b>Total non-appropriation agency revenues</b>	<b>18,956</b>	<b>17,218</b>
Appropriation revenue	250,981	269,558
<b>Total estimated agency revenues</b>	<b>269,937</b>	<b>286,776</b>

## SPECIAL ACCOUNTS

**Table 1.6: Estimates of special account flows and balances**

	A <sup>(1)</sup> B <sup>(1)</sup> 2004-05 2003-04 opening balance \$'000	2004-05 2003-04 receipts	2004-05 2003-04 payments	2004-05 2003-04 closing balance \$'000
<b>SPECIAL ACCOUNTS</b>				
Services for other governments and non-agency bodies <sup>(2)</sup>	<b>30</b> 30	<b>520</b> 520	<b>520</b> 520	<b>30</b> 30
Other Trust Monies <sup>(3)</sup>	<b>14</b> 14	- -	- -	<b>14</b> 14
<b>Total special accounts</b>	<b>44</b>	<b>520</b>	<b>520</b>	<b>44</b>

1. The opening balance for 2004-05 (reference A) is the same as the closing balance for 2003-04 (reference B).
2. This special account is departmental in nature and is governed by the *Safety Rehabilitation and Compensation Act 1998*.
3. This special account is departmental in nature and is governed by the *Financial Management and Accountability Act 1997*.

**AGENCY EQUITY INJECTIONS AND LOANS**

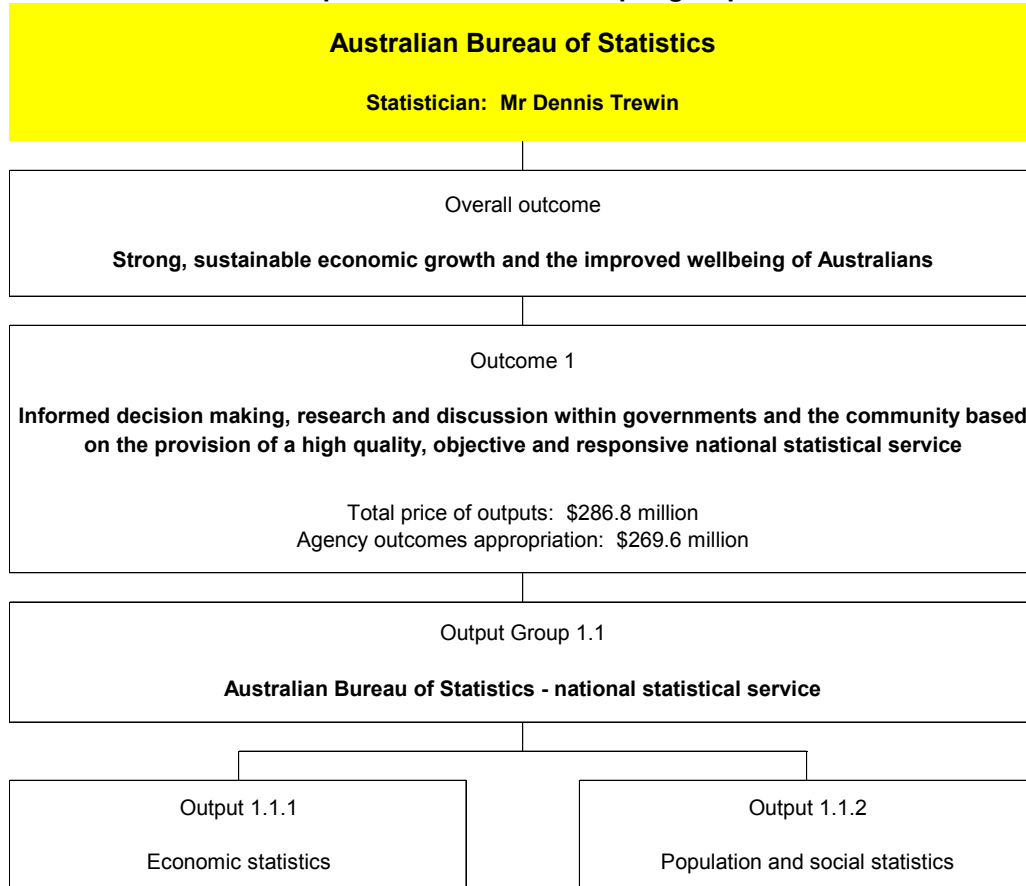

The ABS does not have an appropriation for an equity injection or loan in the 2004-05 Budget.

## Section 2: Outcomes and outputs information

### OUTCOMES AND OUTPUT GROUPS

The map below shows the relationship between government outcomes and the contributing outputs for the Australian Bureau of Statistics (ABS). Financial detail for Outcome 1 by output appears in Table 2.1 while non-financial information for Outcome 1 appears in Table 2.2.

**Map 2: Outcomes and output groups**

## **CHANGES TO OUTCOMES AND OUTPUTS**

There are no proposed changes to the outcome or outputs.

## **OUTCOME 1 — DESCRIPTION**

**Informed decision-making, research and discussion within governments and the community based on the provision of a high quality, objective and responsive national statistical service.**

### **Measures affecting Outcome 1**

There are no measures for the ABS in the 2004-05 Budget.

## **OUTCOME 1 — RESOURCING**

Table 2.1 shows how the 2004-05 appropriations translate to total resourcing for Outcome 1, including revenues from government (appropriations), revenue from other sources, and the total price of outputs.

*Part C: Agency Budget Statements – ABS*

The economic statistics output contains an extensive range of statistical outputs relating to the structure and performance of the Australian economy. It provides an objective source of information that is used by governments and the community to inform their decisions. For example, economic statistics are used to formulate government macroeconomic policies, to assist in allocating Australian Government funds to State Governments, to formulate industry development policies, in financial and business planning and in wage determination.

The population and social statistics output contains statistical information relating to the Australian population, including census and demographic statistics, as well as information relating to the social and economic wellbeing of the population. It provides an objective source of information that is used by governments and the community to inform their decisions. For example, census data are used extensively to plan for communities; labour statistics are used in the formulation of macroeconomic policy and in developing government labour market policies and programmes; and social statistics are used to support policy development in areas such as health, social security, taxation, and community and family services.

Reliable social and economic statistics are fundamental to an open government and it is the responsibility of government to provide them and to maintain public confidence in them. The ABS performs this function as an independent statutory authority of the Australian Government.

## PERFORMANCE INFORMATION FOR OUTCOME 1

**Table 2.2: Performance information for Outcome 1**

<b>Outcome</b>	
Informed decision-making, research and discussion within governments and the community based on the provision of a high quality, objective and responsive national statistical service.	
<b>Output measures</b>	
1. Integrity in statistical operations	1.1 An objective statistical service, as demonstrated by: <ul style="list-style-type: none"> <li>- release of reliable/accurate statistics;</li> <li>- open statistical process; and</li> <li>- trust and cooperation of providers.</li> </ul>
2. Relevance of ABS output	2.1 Statistical output which meets the needs of key users of economic and social data in terms of: <ul style="list-style-type: none"> <li>- support to decision-making; and</li> <li>- demonstrated by a high level of use.</li> </ul> 2.2 Openness of planning process.
3. Appropriate use of statistical standards, frameworks and methodologies	3.1 Lead the development of national statistical standards, frameworks and methodologies, and their implementation within the broader Australian statistical system. 3.2 Contribute to the development of key international standards, frameworks and methodologies, and implement them as appropriate.
4. Improving coordination of the collection, compilation and dissemination of statistics produced by other official bodies	4.1 Statistical Clearing House activity. 4.2 Assisting other official bodies with integration of administrative and statistical data, including outposting ABS officers, and providing training on statistical standards, frameworks and methodologies. 4.3 Identifying, storing and disseminating statistics from other official bodies.

**Table 2.2: Performance information for Outcome 1 (continued)**

<b>Output measures</b>	
<b>Output Group 1.1 - Australian Bureau of Statistics - national statistical service</b>	
Output 1.1.1 - Economic statistics; and	
Output 1.1.2 - Population and social statistics	
1. Increase the quantity of outputs	1.1 Increase the range of statistics disseminated.  1.2 Innovative outputs.
2. Improve the quality of outputs	2.1 Achieve or exceed timeliness, statistical reliability, response rates and accuracy objectives: - timeliness; - statistical reliability; - response rates; and - accuracy.  2.2 Conduct ongoing research and reviews of quality and implement their recommendations: - outlines of ABS statistical reviews; and - innovative practices – improvements to existing collections as a result of research and development.
3. Achievement of cost effective outputs	3.1 Conduct efficiency reviews and audits, and implement their recommendations.  3.2 Test operating efficiencies of statistical activities by benchmarking internally and externally.  3.3 Market test a number of non-statistical activities to identify possible outsourcing opportunities.  3.4 Minimise respondent load.

## EVALUATIONS

Output performance indicators (shown in Table 2.2) will be used to measure evaluation activity for this outcome. The results of the evaluation will be shown in the ABS Annual Report.

## Section 3: Budgeted financial statements

The budgeted financial statements will form the basis of the financial statements that will appear in the Australian Bureau of Statistics (ABS) 2003-04 Annual Report, and form the basis for the input into the whole-of-government accounts. The financial statements should be read in conjunction with the accompanying notes.

The budgeted financial statements contain estimates prepared in accordance with the requirements of the Australian Government's financial budgeting and reporting framework, including the principles of Australian Accounting Standards and Statements of Accounting Concepts, as well as specific guidelines issued by the Department of Finance and Administration.

### **ANALYSIS OF BUDGETED FINANCIAL STATEMENTS**

#### **Budgeted agency statement of financial performance**

The ABS is budgeting for a nil operating surplus in 2004-05.

Total agency revenue is estimated to be \$286.8 million. This is an increase of \$16.8 million from the 2003-04 estimated actual.

This rise in revenue is primarily attributed to an increase in appropriations as a result of:

- an increase specifically related to the 2006 Census, as part of the normal Census cycle.
- \$4.5 million transfer of funding from 2007-08 to 2004-05.

Total expenses are estimated to be \$286.8 million, an increase of \$14.8 million from the 2003-04 estimated actual.

This increase in expenses can be attributed directly to the increase in employee and suppliers expenses associated with the preparations for the 2006 Census, as part of the normal Census cycle.

#### **Budgeted agency statement of financial position**

In 2004-05 the ABS's total equity will increase by \$0.2 million. This change is related to the capital injection as shown in the *2003-04 Portfolio Additional Estimates Statements* relating to the Budget Estimates and Framework Review.

*Part C: Agency Budget Statements – ABS*

The expected outlook for the ABS indicates that the asset base of the organisation will remain stable, with liabilities for employee provisions expected to increase in the out years. This increase is expected following the increase in staff numbers for the 2006 Census cycle.

The build up of cash in the out years is occurring due to reduced spending on a restructured capital programme. It is expected that the cash build-up will be utilised for additional capital purchases in the long term.

## **AGENCY FINANCIAL STATEMENTS**

### **Budgeted agency statement of financial performance**

This statement provides a picture of the expected financial results for the ABS by identifying full accrual expenses and revenues, which highlight whether the ABS is operating at a sustainable level.

### **Budgeted agency statement of financial position**

This statement shows the financial position of the ABS. It enables decision-makers to track the management of the ABS's assets and liabilities.

### **Budgeted agency statement of cash flows**

Budgeted cash flows, as reflected in the statement of cash flows, provides important information on the extent and nature of cash flows by categorising them into expected cash flows from operating activities, investing activities and financing activities.

### **Agency capital budget statement**

Shows all planned agency capital expenditure (capital expenditure on non-financial assets), whether funded either through capital appropriations for additional equity or borrowings, or funds from internal sources.

### **Agency non-financial assets — summary of movement**

This statement shows the movement in ABS's non-financial assets during the budget year.

## **NOTES TO THE FINANCIAL STATEMENTS**

### **Basis of accounting**

The agency budget statements have been prepared on an accrual basis and in accordance with historical cost convention, except for certain assets, which are at valuation.

### **Budgeted agency financial statements**

Under the Australian Government's accrual budgeting framework, and consistent with Australian Accounting Standards, transactions that agencies control (agency transactions) are budgeted and reported separately from transactions agencies do not have control over (administered transactions). This ensures that agencies are only held fully accountable for the transactions over which they have control.

Agency assets, liabilities, revenues and expenses in relation to an agency are those that are controlled by the agency. Agency expenses include employee and supplier expenses and other administrative costs, which are incurred by the agency in providing its goods and services.

### **Budgeted agency statement of financial performance**

#### **Revenues**

Appropriations in the accrual budgeting framework

Under the Australian Government's accrual budgeting framework, the ABS is appropriated only for the price of its outputs, which represent the Australian Government's purchase of these agreed outputs.

#### **Revenue from other sources**

The decrease in revenue from other sources in 2003-04 and 2004-05 is due to the additional revenue associated with the sales of census output during the last financial year.

#### **Other**

This category includes resources received free of charge.

## **Expenses**

### **Employees**

This includes wages and salaries, superannuation, provision for annual leave and long service leave, and workers compensation. Employee entitlements are based on leave patterns of ABS employees. Accrued salaries and employer superannuation contributions are based on daily salary expense and the number of days owing at 30 June in each budget year.

### **Depreciation and amortisation**

Depreciable assets are written off over their estimated useful lives. Depreciation is calculated using the straight-line method, which is consistent with the consumption of the service potential of the depreciable assets of the ABS.

## **Budgeted agency statement of financial position**

### **Non-financial assets**

#### **Intangibles**

These include software developed in-house.

#### **Inventory**

ABS inventory includes publications of statistics both in print and on CD. These levels are expected to remain stable in the out years.

#### **Other**

This category includes prepayments.

### **Debt**

#### **Loans**

The ABS received a loan of \$13.2 million in 2001-02. This loan was used to partially fund the fitout of the ABS's new national office accommodation. Loan repayments will be made over a ten year period and are being met by the ABS from within its ongoing operational funding levels.

#### **Leases**

These include lease incentives in the form of a rent-free period and/or a contribution to fitout costs. Lease incentives are recognised as a liability, which is reduced by allocating lease rental payments between interest, rental expense and reduction of the liability.

### **Provisions and payables**

#### **Employees**

The liability for employee entitlements includes provision for annual leave and long service leave. No provision has been made for sick leave as all sick leave is non-vesting.

The non-current portion of the liability for long service leave is recognised and measured at the present value of the estimated future cash flows in respect of all employees.

### **Asset valuation**

Australian Government agencies and authorities are required to value property, plant and equipment and other infrastructure assets using the deprival method of valuation. This essentially reflects the current cost the entity would face in replacing that asset.

### **Capital budget statement**

This shows proposed capital expenditure for the ongoing replacement programme of non-financial assets. This asset replacement programme is funded internally.

### **Purchase of non-financial assets**

These include:

- 2003-04 intangibles of \$14.7 million, infrastructure, plant and equipment of \$10.3 million, which includes fitout to the Western Australian and South Australian offices of \$1.3 million;
- 2004-05 intangibles of \$15.3 million, infrastructure, plant and equipment of \$9.9 million, which includes fitout to the New South Wales, Queensland and Census offices of \$2.7 million;
- 2005-06 intangibles of \$14.8 million, infrastructure, plant and equipment of \$17.0 million, which includes fitout to the Queensland, Victorian and Census offices of \$5.1 million;
- 2006-07 intangibles of \$14.9 million, infrastructure, plant and equipment of \$10.4 million, which includes fitout to the Australian Capital Territory, South Australian and Tasmanian offices of \$4.5 million; and
- 2007-08 intangibles of \$14.8 million, infrastructure, plant and equipment of \$8.0 million, which includes fitout to the Western Australian and Census offices of \$1.4 million.

## Section 4: Purchaser/provider and cost recovery arrangements

### **PURCHASER/PROVIDER ARRANGEMENTS**

#### **Cross agency overview**

The Australian Bureau of Statistics' (ABS) goods and services are purchased by several Australian Government agencies. Some of our material clients are as follows:

- Australian Agency for International Development
- Australian Institute of Health and Welfare
- Department of Agriculture, Fisheries and Forestry-Australia
- Department of Education, Science and Training
- Department of Communications, Information Technology and the Arts
- Department of Employment and Workplace Relations
- Department of Family and Community Services
- Department of Health and Ageing; and
- Department of Transport and Regional Services

### **COST RECOVERY ARRANGEMENTS**

Cost recovery guidelines have been developed by the ABS in relation to the various goods and services paid for by clients. This amounts to \$16.9 million in 2004-05.

#### **Summary of cost recovery impact statement**

The ABS will complete a cost recovery impact statement during 2005-06.
