INSPECTOR-GENERAL OF TAXATION

Section 1: Agency overview

The *Inspector-General of Taxation Act 2003* established an independent statutory agency to review:

- systems established by the Australian Taxation Office to administer the tax laws; and
- systems established by tax laws in relation to administrative matters.

The Inspector-General seeks to improve the administration of the tax laws for the benefit of all taxpayers. This is to be achieved by identifying and conducting reviews of systemic issues in the administration of the tax laws and providing independent advice to the government.

To ensure that reviews undertaken reflect areas of key concern to the Australian community, the Inspector-General develops a work programme following broad-based consultation with other stakeholders including taxpayers and their representatives, the Australian Government Ombudsman, the Commonwealth Auditor-General and the Commissioner of Taxation.

2.1: APPROPRIATIONS AND OTHER RESOURCES

The total appropriation for the Inspector-General of Taxation (IGT) in the 2005-06 Budget is \$2.1 million.

Table 2.1 shows the total resources from all origins for 2005-06, including appropriations. The table summarises how revenue will be applied by outcome and departmental classification.

1 This table has been redesigned to correspond with *Budget Paper No. 4, Agency Resourcing 2005-06*.

2 Revenue from other sources includes *Financial Management and Accountability Act 1997* (FMA) s.31 revenues, that are available to be expensed, special accounts (non-appropriation revenues) and resources received free of charge.

3 Percentage figures indicate the percentage contribution of Revenue from Government (Departmental Appropriations) to the total price of outputs, by outcome, and the percentage contribution of Revenue from other sources (Departmental) to the total price of outputs, by outcome.

4 Total resources = Total appropriations + Revenue from other sources.

Note: Refer to Budgeted departmental statement of financial performance for application of agency revenue.

2.2: 2005-06 BUDGET MEASURES

Budget measures relating to the IGT as explained in *Budget Paper No. 2, Budget Measures 2005-06* are summarised in Table 2.2. The table also identifies the relevant outcomes and outputs associated with each measure.

Section 3: Agency outcomes

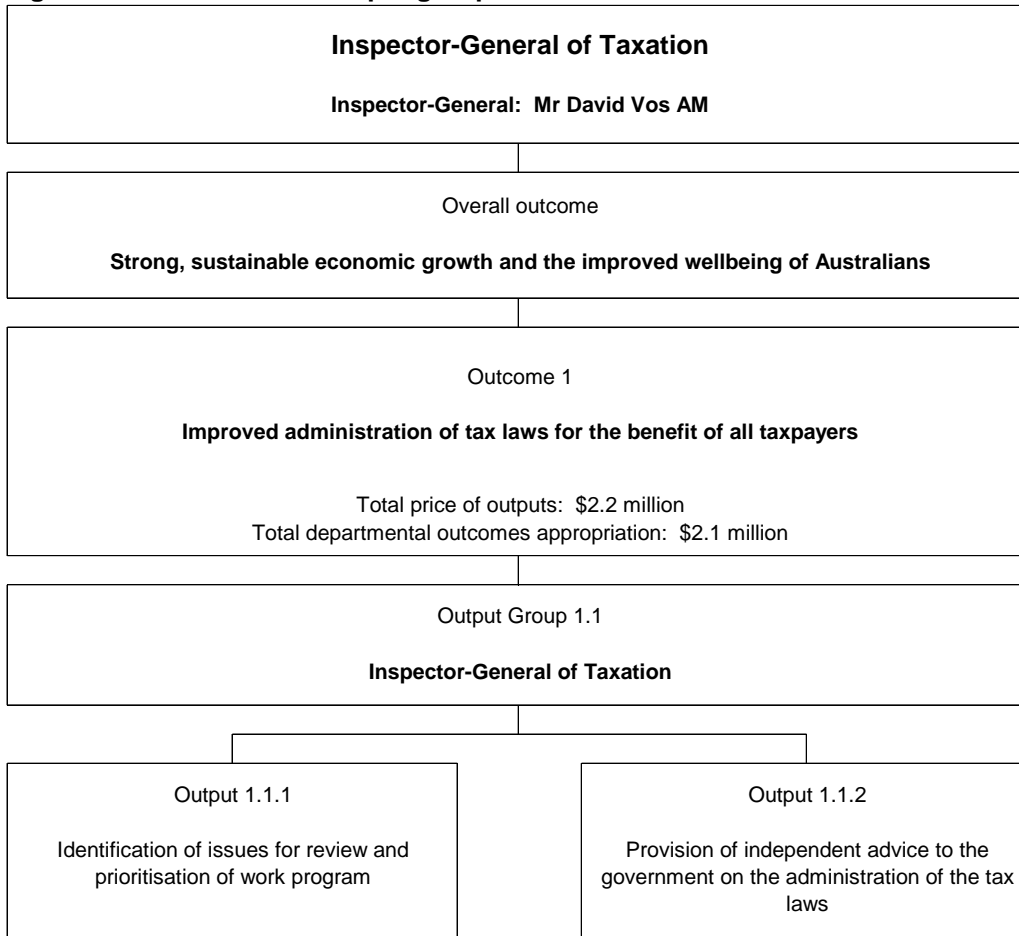

This section explains how the resources identified in Section 2 will be used to deliver outputs that contribute to the outcome for the Inspector-General of Taxation (IGT).

3.1: SUMMARY OF OUTCOMES AND OUTPUTS

The IGT only has two outputs, being identification of a work programme and provision of advice to government following review activities. The two outputs are strongly linked, with review topics often identified during the conduct of the actual work programme (in addition to specific consultative processes). Informed estimates indicate that approximately five per cent of staff resources are utilised on Output 1.1.1, and 95 per cent are utilised on Output 1.1.2.

The relationship between activities of the IGT and the outcome is summarised in Figure 4.

Figure 4: Outcomes and output groups

3.2: OUTCOMES — DEPARTMENTAL

IGT has only one outcome, namely, 'improved administration of tax laws for the benefit of all taxpayers'. The total appropriation for this outcome for 2005-06 is \$2.1 million.

Details of this measure is included in *Budget Paper No. 2, Budget Measures 2005-06*.

Outcome 1 contribution of outputs

The role of the IGT is to improve the administration of the tax laws for the benefit of all taxpayers.

This is achieved by reviewing the systems established by the Australian Taxation Office to administer the tax laws and the systems established by tax laws in relation to administrative matters.

The IGT's two outputs derive from the statutory functions. These outputs involve, firstly, the identification of systemic issues for review and the prioritisation of the work programme and, secondly, the provision of independent advice to government on the administration of the tax laws.

The scope of the work programme is determined by the identification and prioritisation of a systemic issue by the Inspector-General. However, the Act also provides that the Minister may direct that a matter be included on the work programme, and that the Inspector-General considers requests to conduct reviews from:

- the Minister (separate from the direction provision); or
- the Commissioner of Taxation; or
- a resolution of either House, or both Houses, of the Parliament; or
- a resolution of a Committee of either House, or both Houses, of the Parliament.

Broad-based community involvement in the identification of issues and the opportunity for all stakeholders to provide submissions ensures that reviews undertaken are relevant and timely for all stakeholders. In view of this, the Inspector-General requires the flexibility to vary resourcing allocations so as to allow emerging and important systemic issues to be addressed in a manner that is timely and relevant to government.

The IGT has no power to direct the Commissioner of Taxation in the administration of the tax laws. The effectiveness with which Inspector-General's advice to government contributes to the achievement of the outcome may be difficult to assess. In some instances, the provision of advice to government may lead to legislative change to address an identified systemic issue. However, on other occasions the Commissioner of Taxation may independently address a systemic issue identified by the IGT either as a result of undertaking a review, or following the release of a Review Report by the Minister or the publication of an Issues Paper or Work Programme by the Inspector-General.

Evaluations for Outcome 1

Internal, informal monitoring of the IGT's performance and output is undertaken on a continuous basis.

Evaluation of actual levels of achievement will be shown in the IGT's 2004-05 Annual Report.

Section 4: Other reporting requirements

4.1: PURCHASER-PROVIDER ARRANGEMENTS

The Inspector-General of Taxation (IGT) does not have any purchaser/provider arrangements in place.

4.2: COST RECOVERY ARRANGEMENTS

The IGT does not have any cost recovery arrangements in place in respect of operational activities. Various organisations do provide travel and accommodation associated with some speaking engagements. The Inspector-General has negotiated a cost recovery/contra agreement with the Australian Reinsurance Pool Corporation in respect of office arrangements in Sydney and Canberra. While mutually beneficial to both organisations, the arrangement is revenue positive for the Inspector-General and the proceeds are covered by a Section 31 Agreement with the Department of Finance and Administration.

4.3: AUSTRALIAN GOVERNMENT INDIGENOUS EXPENDITURE

Table 4.1: Australian Government Indigenous Expenditure

This table is not applicable to the IGT.

Section 5: Budgeted financial statements

5.1: ANALYSIS OF BUDGETED FINANCIAL STATEMENTS

The office of the Inspector-General of Taxation (IGT) consists of a statutory office holder and five staff. The IGT relies upon the support and contribution to reviews of many in the private sector, particularly professional associations and business groups. The co-operation and support of relevant government agencies is also very important to the achievement of the outcome.

For 2004-05, approximately 50 per cent of the budget allocation was expended on employee costs. Another 25 per cent was expended on office accommodation and corporate overheads. The final 25 per cent was expended on direct costs associated with completion of the work programme. It is expected that this expenditure pattern will continue in future years.
