AUSTRALIAN SECURITIES AND INVESTMENTS COMMISSION

Section 1: Agency overview and resources; variations and measures

OVERVIEW

There has been no change to the overview included in the *Portfolio Budget Statements 2007-08* (page 165).

Table 1.1: Agency outcomes and output groups

Outcome	Description	Output groups
Outcome 1		
A fair and efficient market characterised by integrity and transparency and supporting confident and informed participation of investors and consumers	Through ASIC, the Government seeks to ensure that consumers and investors receive honest and competent financial advice that is untainted by conflicts of interest, and that information about corporations is current and accurate ASIC also has an enforcement and regulatory role designed to deal with misconduct in order to promote a confident and informed market	Output Group 1.1 Australian Securities and Investments Commission

ADDITIONAL ESTIMATES AND VARIATIONS TO OUTCOMES

The following variations in Table 1.2 and Table 1.3 contributed to a net increase in agency outputs in 2007-08.

Table 1.2: Additional estimates and variations to outcomes — measures

	2007-08	2008-09	2009-10	2010-11

Total special accounts 2006-07 actual		-	30,000	(16,137)	-	13,863

1. For the year ended 30 June 2007, ASIC recognised ESA revenue of \$17.0 million, of which \$16.1 million was drawdown resulting in a balance of \$0.9 million appropriation receivable as at 30 June 2007.
2. The special accounts are governed by section 20 of the FMA Act 1997.
3. This special account was established in July 2007 as a result of ASIC becoming a prescribed agency under the FMA Act 1997. The account is governed by section 21 of the FMA Act 1997. The amount of \$4.9 million represents an adjustment to the limit of appropriation available for the purpose of the special account.

Section 2: Revisions to agency outcomes

OUTCOMES, ADMINISTERED ITEMS AND OUTPUTS

Table 1.1 'Agency outcome and output groups' lists the outcome statement and output group for the Australian Securities and Investments Commission (ASIC).

ASIC has not made any changes to its outcome or outputs since the *Portfolio Budget Statements 2007-08*.

Revised performance information — 2007-08

ASIC has not made any changes to its performance information since the *Portfolio Budget Statements 2007-08*.

Section 3: Budgeted financial statements

The budgeted departmental and administered financial statements and related notes for the Australian Securities and Investments Commission (ASIC) are presented in this section. The financial statements should be read in conjunction with the accompanying notes.

The budgeted financial statements contain estimates prepared in accordance with the requirements of the Australian Government's financial budgeting and reporting framework, including the principles of Australian Accounting Standards (incorporating the Australian Equivalents to International Financial Reporting Standards (AEIFRS)) and Statements of Accounting Concepts, as well as specific guidelines issued by the Department of Finance and Deregulation.

ANALYSIS OF BUDGETED FINANCIAL STATEMENTS

BUDGETED FINANCIAL STATEMENTS

Departmental financial statements

Budgeted departmental income statement

ASIC is currently budgeting for a break-even operating result for 2007-08 and for the remainder of the forward estimates.

Appropriation for 2007-08 is \$315.5 million, which is an increase of \$23.9 million from the 2007-08 Budget. Of this amount, \$23.3 million relates to unutilised appropriation carried forward from 2006-07 to 2007-08. The balance of the \$0.6 million increase in appropriation is attributable to measures as shown in Table 1.2 and Table 1.4.

Other revenue has increased by \$3.1 million from the 2007-08 Budget. Of this amount \$2.6 million relates to the application of accumulated interest from the Companies Unclaimed Monies Special Account (CUMA) to fund a number of projects approved by the Minister under section 135 of the *Australian Securities and Investments Commission Act 2001*.

Total revenue and expenses are estimated to be \$326.9 million for 2007-08. The expenditure will be used to fund activities that contribute towards achieving the output objectives outlined in Figure 2.

Budgeted departmental balance sheet

This statement shows the financial position of ASIC. It helps decision-makers to track the management of ASIC's assets and liabilities.

ASIC's budgeted equity (or net asset position) for 2007-08 is expected to be \$60.1 million. The capital funding for 2007-08 has increased by \$1.5 million for the Standard Business Reporting measure.

Cash and cash equivalents are estimated to be \$3.8 million at 30 June 2008. Since July 2007, ASIC is required to keep cash at a working capital level agreed with the Department of Finance and Deregulation. The difference between the appropriation entitled and cash appropriation drawn down is recognised as appropriation receivable. Of the budgeted receivable balance of \$47.9 million as at 30 June 2008, \$43.6 million represents appropriation receivable from government.

The increase in non-financial assets in 2007-08 relates primarily to the increase in capitalised software as part of the information technology security and risk mitigation phase 2 and application development project.

Budgeted departmental statement of cash flows

The budgeted statement of cash flows provides important information on the extent and nature of cash flows by categorising them into expected cash flows from operating activities, investing activities and financing activities.

Departmental statement of changes in equity — summary of movement

This statement shows the changes in the equity position of ASIC. It helps decision-makers to track the management of ASIC's equity.

Departmental capital budget statement

This statement shows all proposed capital expenditure funded through the budget as appropriation or from internal sources.

Departmental property, plant, equipment and intangibles — summary of movement

This statement shows the movement in ASIC's non-financial assets during the budget year.

Schedule of administered activity

Schedule of budgeted income and expenses administered on behalf of government

The statement of financial performance shows the revenue and expenses associated with the collection of revenue under the *Corporations Act 2001*, and ASIC's

Agency Additional Estimates Statements – ASIC

responsibilities in administering unclaimed monies under the *Banking Act 1959* and the *Life Insurance Act 1995*.

Other non-taxation revenue represents the amount of fees and charges budgeted to be levied under the *Corporations Act 2001* and estimated receipts of unclaimed monies under the *Banking Act 1959* and the *Life Insurance Act 1995*.

Expenses represent budgeted payments of unclaimed monies, refund of overpaid fees and charges to be levied under the *Corporations Act 2001*, bad debt expense and payments to registered insolvency practitioners to investigate breaches of directors' duties and fraudulent conduct.

Schedule of budgeted assets and liabilities administered on behalf of government

The amount shown for receivables in 2007-08 and in the forward estimates is the estimated amount of fees and charges under the *Corporations Act 2001* remaining unpaid at 30 June.

The amounts shown in other payables for 2007-08 and the forward estimates represent the estimated amount of refunds relating to the over payments of annual review and other fees under the *Corporations Act 2001*.

Schedule of budgeted administered cash flows

Budgeted administered cash flows, provide important information on the extent and nature of cash flows by categorising them into expected cash flows from operating activities, investing activities and financing activities.

Table 3.10: Schedule of administered capital budget

ASIC does not have any administered capital.

Table 3.11: Schedule of administered property, plant, equipment and intangibles — summary of movement (Budget year 2007-08)

ASIC does not have any administered property, plant, equipment or intangible assets.

NOTES TO THE FINANCIAL STATEMENTS

Basis of accounting

The financial statements have been prepared on an accrual basis and in accordance with the historical cost convention except for certain assets, which are at fair value.

Budgeted agency financial statements

Under the Australian Government's accrual budgeting framework, and consistent with Australian Accounting Standards, transactions that agencies control (departmental transactions) are separately budgeted for and reported on from transactions that agencies do not have control over (administered transactions). This ensures that agencies are only held fully accountable for the transactions over which they have control.

Departmental items are those assets, liabilities, revenues and expenses in relation to an agency or authority that are controlled by the agency. Departmental expenses include employee and supplier expenses and other administrative costs, which are incurred by the agency in providing its goods and services.

Administered items are revenues, expenses, assets and liabilities that are managed by an agency or authority on behalf of the Australian Government according to set government directions. Administered expenses and administered revenues include fees, fines and expenses that have been earmarked for a specific purpose by the government.

Appropriations in the accrual budgeting framework

Under the Australian Government's accrual budgeting framework, separate annual appropriations are provided for:

- departmental price of outputs appropriations representing the Australian Government's purchase of outputs from agencies;
- departmental capital appropriations for investments by the Australian Government for either additional equity or loans in agencies;
- administered expense appropriations for the estimated administered expenses relating to an existing outcome or a new outcome; and
- administered capital appropriations for increases in administered equity through funding non-expense administered payments.

Departmental

Asset valuation

ASIC has adopted fair value as a basis for valuing its leasehold improvements and plant and equipment. Valuation is conducted with sufficient frequency to ensure that the carrying amounts of assets do not differ materially from the assets' fair values as at the reporting date.

Asset recognition threshold

Purchases of property, plant and equipment are recognised initially at cost in the balance sheet, except for purchases costing less than \$2,000, which are expensed in the year of acquisition.

Leases

A distinction is made between finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to ownership of leased non-current assets, and operating leases under which the lessor effectively retains substantially all such risks and benefits.

Where a non-current asset is acquired by means of a finance lease, the asset is capitalised at the lower of fair value or the present value of minimum lease payments at the inception of the lease and a liability recognised for the same amount. Leased assets are amortised over the period of the lease. Lease payments are allocated between the principal component and the interest expense.

Operating lease payments are charged to the income statement on a basis that is representative of the pattern of benefits derived from the lease assets.

Depreciation and amortisation

Computer equipment is depreciated using the declining-balance method whilst, for all other plant and equipment, the straight-line method of depreciation is applied. Leasehold improvements are amortised on a straight-line basis over the lesser of the estimated life of the improvements or the unexpired period of the lease.

Depreciation/amortisation rates (useful lives) are reviewed at each balance date and necessary adjustments are recognised.

Receivables

A provision is raised for any doubtful debts based on a review of the collectability of all outstanding accounts as at year-end.

Bad debts are written off during the year in which they are identified.

Provisions and payables

Provisions and payables represent liabilities for miscellaneous accruals and employee benefits, including accrued salary and leave entitlements, provisions for making-good leased premises and lease incentives. No provision for sick leave is required as all sick leave is non-vesting.

Administered

Schedule of budgeted revenues and expenses administered on behalf of government

Revenues

Non-taxation revenues are predominately comprised of Corporations Act fees and charges and collections of unclaimed monies under the *Banking Act 1959* and the *Life Insurance Act 1995*.

Write down and impairment of assets

Write down and impairment of assets represents waivers and write-offs of Corporations Law fees.

Schedule of budgeted assets and liabilities administered on behalf of government

Financial assets

The financial assets include Corporations Law debt invoiced and still outstanding at year-end.

Schedule of budgeted administered cash flows

All cash collected by ASIC for Corporations Law revenue, is transferred to the Official Public Account (OPA) at the close of business each day. Cash collected for Banking Act unclaimed monies and Life Insurance Act unclaimed monies is transferred to the OPA when received.
