# OFFICE OF THE AUSTRALIAN ACCOUNTING STANDARDS BOARD

## Section 1: Agency overview and resources

### 1.1 STRATEGIC DIRECTION

The Office of the Australian Accounting Standards Board (AASB) is an Australian Government agency under the *Australian Securities and Investments Commission Act 2001*. The AASB transferred governance arrangements from the *Commonwealth Authorities and Companies Act 1997* framework to the *Financial Management and Accountability Act 1997* framework from 1 July 2008.

The functions of the AASB are to:

- develop a conceptual framework for the purpose of evaluating proposed accounting standards and international standards;
- make accounting standards under section 334 of the *Corporations Act 2001* for the purposes of the corporations legislation;
- formulate accounting standards for other purposes;
- participate in and contribute to the development of a single set of accounting standard for world-wide use; and
- facilitate the Australian economy by reducing the cost of capital, enabling Australian entities to compete effectively overseas, leaving accounting standards that are clearly stated and easily to understand, and to maintain investor confidence in the Australian economy (including its capital markets).

The vision of the AASB is to build on its reputation as a leading national standard setter and be recognised as a global centre of excellence, delivering a truly distinctive contribution to the development of high quality financial reporting standards.

The mission of the AASB is to develop and maintain high quality financial reporting standards for all sectors of the Australian economy and contribute, through leadership and talent, to the development of global financial reporting standards and be recognised as facilitating the inclusion of the Australian community in the activity of global standard setting.

## Agency Additional Estimates Statements — AASB

Key priorities during 2008-09 include:

- issue Australian equivalents to the International Accounting Standards Board (IASB) standards, exposure drafts, invitations to comment and interpretations;
- retain a transaction neutral policy of standard setting;
- participate in ongoing IASB and International Public Sector Accounting Standards Board (IPSASB) research projects including extractive activities for the IASB and conceptual framework and service concessions for the IPSASB;
- issue an exposure draft and standard on superannuation entity accounting; and
- establish a policy on the use of the IPSASB standards in Australia.
